### **INTERVIEW SUMMARY**

The attorney for applicant and examiner discussed the claims in an telephone interview on February 11, 2008. It was acknowledged that the Examiner is willing to allow the claims that assemble the pegs to the plate (claims 40, 41 and 50 and 51). The attorney for applicant and examiner discussed how to claim the structure of the plate so that it is directed to the desired subject matter, and obviates claiming the pegs, while still be allowable over the cited art. The discussion focused on claiming structure (e.g., threads) that limits the respective axes to one and only a one direction for any of the claimed holes.
